<p>DESCRIPTION</p> <p>LESSON 1 The goal of this exercise is to create a fashion accessory or an object based on a surface made out of Logifaces. The students compose their own surfaces using the blocks. They need to arrange them in a way so that it is possible to use the design as a pattern for cutting. For example, arranging them in a rectangular form so it would be possible to put two pieces together to form a bag.</p> <p>LESSON 2 After arranging the blocks the students draw or take a picture of them from above to help them form the geometric pattern. This will become the pattern for one or both sides of the accessory.</p> <p>LESSON 3 and 4 Students create a mock up of the object or the accessory, by folding the lines on the paper and gluing the sides together.</p>		
<p>GUIDELINES / EXPECTATIONS</p> <p>INSPIRATION fashion illustrations, fashion pieces</p> <p>TECHNIQUE graphics, folding, design</p> <p>OBJECTIVE The main expectation is to have a complete mock up at the end of the 4 lessons.</p>
