---	--	--

DESCRIPTION

Preparation: each student has a Logifaces set, or some pieces in front of them. In the first round the teacher is the leader, then students take turns in being leaders. The other students close their eyes.

1. The leader asks students to find a piece with a certain property, e.g. 'has three different heights' or 'is symmetrical'.
2. Students find a piece with their eyes closed and hold it up.
3. Students open their eyes and check if the piece of their neighbour is correct.
