<p><b>DESCRIPTION</b></p> <p>The faces of the blocks are different polygons such as triangles and quadrilaterals. Students work in groups of 3 or 4. Each group gets a Logifaces set and a template of polygons that can be found at the end of the exercise. For the 9 pcs Set only the first page is needed, for the 16 pcs Set both pages are needed. They cut out the polygons of the template and fit them to the faces of the blocks using Blu Tack.</p>
