GeoGebra 3D and Google Play Services for AR: A Beautiful Integration

GeoGebra 3D empowers students to mathematically BUILD 3D MODELS of the world around them. **Google Play Services for AR** empowers students to virtually TEST the accuracy of their models and any changes students make to IMPROVE them!

MODELING A System of Linear Equations in Three variables

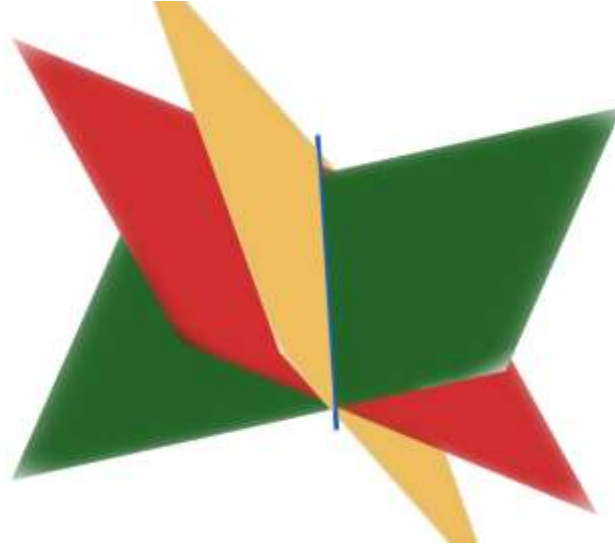

$$(i) \quad x - y + 2z = 2, \quad 2x + y + 4z = 7, \quad 4x - y + z = 4$$
