<p>DESCRIPTION</p> <p>Students form groups of 3 (if the number of the students is not divisible by 3, there may be 4 in a group). Each group stands in the shape of an equilateral triangle, 3 students stand at the vertices, and the extra student, if any, at the centre. The students should move around so that they remain in the shape of an equilateral triangle, they should change location, size, and orientation. Optionally the teacher may play music.</p>		
<p>SOLUTIONS / EXAMPLES</p> <p>This exercise serves as an icebreaker for further Logifaces movement exercises. It can also be used as short energising break in between theoretical exercises.</p>
